

# PLANNED GIVING

*Your Gift to the Future*

---

## Recognizing your Gift Intention

Making provisions in your estate plans to leave a planned gift to the MMLT can be a very personal and private decision. However, if you have made provisions for the MMLT in your will and you are comfortable letting the MMLT know accordingly, the MMLT will make note in their records of your intent as well as invite you, should you accept, to allow your intention to be publically known by being listed with the donors on the MMLT's annual report. To be frank, allowing your intention to be known will help others in your community realize that they too could consider making a planned gift and be an important supporter of the Land Trust.

For more information on making a Planned Gift, please contact the MMLT at (613) 253-2722
